Rockbox Raw is charging

---

2. Fuel up (charging)

For best results, fully charge your Rockbox Raw before use. If you cannot wait, use it while it´s charging and enjoy the music!

a. How to charge

Plug the Rockbox Raw into an available USB port of your PC or Notebook with the supplied micro USB charging cable. While your Rockbox Raw is charging, the LED light will be orange.

b. How long to charge

A full charge may take between 2 and 3 hours. For maximum battery performance, always use the supplied micro USB charging cable and disconnect when the LED is not orange anymore. This means charging is complete.

---

3. Connect to your Rockbox Raw

a. Connect wirelessly via Bluetooth

Your Rockbox Raw can wirelessly play your music from any Bluetooth device such as Smartphones, Tablets, MP3 players, notebooks and PCs.

Just follow the steps:

1. Prepare your Rockbox Raw for pairing

Turn on your Rockbox Raw by switching the On/Off button. You will hear a sound signal when your Rockbox Raw is ready to connect.

2. Prepare your Bluetooth device for pairing by enabling Bluetooth

iPhone, iPod or iPad
1. Go to "Settings"
2. Go to "General"
3. Enable Bluetooth

Android phone or Tablet
1. Go to "Settings"
2. Go to "Bluetooth"
3. Enable Bluetooth

Mac OS X
1. Click the Bluetooth icon in the menu bar in the upper-right of your display
2. Turn Bluetooth on

Windows 7
1. Click the "Start button"
2. Click "Control Panel"
3. In the search box, type "Bluetooth"
4. Click "Change Bluetooth settings"
5. In the dialog box, click the "Options" tab
6. Select the check box for "Allow Bluetooth devices" to connect to this computer

Windows 8
1. Move the mouse to the lower right so that several icons begin to appear
2. Move the mouse upward to reveal them
3. Click "Settings"
4. Click "Change PC Settings"
5. Click "PC and devices"
6. Under Bluetooth, turn Bluetooth on

3. Pair your Bluetooth device with your Rockbox Raw

iPhone, iPod or iPad
1. After you have turned Bluetooth on, a list of all the discoverable devices appears
2. Tap the Rockbox Raw to connect to it
3. You will hear an audio signal when the connection is successful

Android phone or Tablet
1. Click Search for devices
2. Tap the Rockbox Raw to connect to it
3. You will hear an audio signal when the connection is successful

Mac OS X
1. Click the Bluetooth icon in the menu bar in the upper-right of your display
2. Click Set up Bluetooth Device

5. You will hear an audio signal from your Rockbox Raw when the connection is successful

Windows 8
1. Move the mouse to the lower right so that several icons begin to appear
2. Move the mouse upward to reveal them
3. Click "Settings"
4. Click "Change PC Settings"
5. Click "PC and devices"
6. Click "Bluetooth"
7. Select the Rockbox Raw from the list of Bluetooth devices and follow the instruction
8. You will hear an audio signal from your Rockbox Raw when the connection is successful

b) Connect via the audio cable

No Bluetooth? Your Rockbox Raw also connects via 3.5mm stereo audio cable.

1. Take the supplied cable
2. Connect one end to your Rockbox Raw
3. Connect the other end to any device with a headphone jack or audio output

---

4. Make some noise! Play music with your Rockbox Raw

Music selected on your connected device will automatically play on your Rockbox Raw. If you don't hear music, ensure you are connected and that the volume is turned up.

Control the music with your Bluetooth device
Use your connected device (Smartphone, Tablet, notebook, PC) to skip tracks, pause, turn the volume up and down.

Control the music using the buttons on the Rockbox Raw
Check the button description under 1b to find out what you can do.

Note
While a device is connected to the speaker via the audio cable, it is not possible to connect a mobile device via Bluetooth simultaneously. To connect via Bluetooth the audio cable has to be unplugged first.

5. Hellos and how are yous. Calling with your Rockbox Raw

When you are connected to your Rockbox Raw via Bluetooth, calls received are automatically transferred to your Rockbox Raw. The Rockbox Raw will work as a speakerphone.

Taking calls
Use your connected Smartphone to answer calls. Alternatively have a look at 1b and use the buttons on the Rockbox Raw to take, end or reject calls.

---

6. Troubleshooting

I hear some distortions. What do I do?
Lower the volume of the Rockbox Raw on your phone. Also make sure it is charged up.

My Rockbox Raw lost the Bluetooth connection. What do I do?
Move the Rockbox Raw closer to your Bluetooth device.
Your Rockbox Raw will automatically reconnect if you are in range.

I can´t pair my Bluetooth device with the Rockbox Raw. What do I do?
We have tried to add explanations for as many devices as possible in this user guide.
However, every Bluetooth device is different. Please check the user guide for your specific device.

---

7. Other things you might want to know

Do I have to pair my Rockbox Raw with my Bluetooth device every time I want to use it?
No, once paired with a device, Rockbox Raw will automatically reconnect when powered on.
Of course, Bluetooth has to be enabled on your Bluetooth device as well.

My Bluetooth device is asking for a PIN or Password to connect to Rockbox Raw. What do I do?
When asked for a Pin or Password enter 0000 and confirm.

Can I connect two Bluetooth devices at once?
No, it is not possible for two Bluetooth devices to be connected at once.

How can I get the best sound out of my Rockbox Raw?
For best sound, make sure your Rockbox Raw is resting on solid ground.
